Praevor Terms of Service

Effective date: November 3, 2026

These Terms of Service ("Terms") govern your use of Praevor ("the Bot"), operated by Praevor ("we", "us"). By adding the Bot to a server, using its commands, or otherwise interacting with it, you agree to these Terms and to our Privacy Policy. If you do not agree, do not use the Bot.

Contact: nameless@thenamelessdev.com

1. Eligibility

You must meet the minimum age required by Discord in your country (13 or older in most regions) and be allowed to enter a binding agreement. If you add the Bot to a server, you must have the **Manage Server** permission (or equivalent) and you accept these Terms on behalf of that server and its staff.

You must also follow the Discord Terms of Service and Community Guidelines at all times.

2. The Service

The Bot provides tools for managing and moderating Discord communities and related servers, such as moderation actions, logging, configuration and utility commands. Features may be added, changed or removed at any time. The Bot is provided free of charge unless we clearly state otherwise.

The Bot is not affiliated with, endorsed by, or sponsored by Discord Inc., Roblox Corporation, Emergency Response: Liberty County or any other third party mentioned in connection with it. All trademarks belong to their respective owners.

3. Acceptable Use

You agree not to use the Bot to:

- Break any law, or violate Discord's Terms of Service or Community Guidelines.
- Harass, threaten, discriminate against, or abuse others, or share illegal or sexually exploitative content.

- Spam, flood, or overload the Bot or the Discord API, or try to circumvent rate limits or permission checks.
- Attempt to exploit, hack, reverse engineer, disrupt or gain unauthorized access to the Bot, its infrastructure or other users' data.
- Use the Bot to collect personal data about people without a lawful reason, or to doxx or stalk anyone.
- Misuse moderation tools to target users in bad faith or in violation of Discord's rules.
- Resell, sublicense or commercially exploit the Bot, or present it as your own, except as allowed by its license.

Server owners and administrators are responsible for how the Bot is configured and used in their servers, and for the actions of staff they give access to.

4. Open Source and Intellectual Property

The Bot's source code is published at github.com/praevor/bot and is licensed under the GNU Affero General Public License, version 3 (AGPL-3.0), as stated in the repository's LICENSE file. Those license terms govern your rights to the code. Nothing in these Terms transfers ownership of the Bot, its name, logo or branding to you.

You keep ownership of the content you create. By using the Bot you give us the limited permission needed to store, process and display that content solely to operate the service.

5. Your Data

Our handling of personal data is described in the Privacy Policy. Server administrators are responsible for informing their members about moderation records and logs stored through the Bot, and for complying with the laws that apply to their community.

6. Third-Party Services

The Bot depends on third-party services such as Discord and may integrate with others (for example Roblox or ER:LC APIs). We do not control these services and are not responsible for their availability, changes, data or terms. If a third party changes or restricts access, parts of the Bot may stop working.

7. Availability and Changes

We aim to keep the Bot running, but we do not guarantee uninterrupted or error-free operation. We may modify, suspend or discontinue the Bot or any feature at any time, with or without notice, for example for maintenance, security or because of third-party changes.

8. Termination and Blacklisting

We may restrict, blacklist or remove access to the Bot, for a user or a whole server, at our discretion if we believe these Terms were broken, the Bot is being abused, or access creates risk or legal exposure. You may stop using the Bot at any time by removing it from your server. Sections that by their nature should survive termination (including 4, 9, 10, 11 and 12) will continue to apply.

9. Disclaimer of Warranties

THE BOT IS PROVIDED "AS IS" AND "AS AVAILABLE", WITHOUT WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, ACCURACY AND NON-INFRINGEMENT. We do not warrant that the Bot will meet your requirements, be secure or error-free, or that data will never be lost. You are responsible for keeping your own backups of anything important.

10. Limitation of Liability

To the maximum extent permitted by law, we and our contributors will not be liable for any indirect, incidental, special, consequential or punitive damages, or for loss of data, profits, goodwill or server membership, arising from your use of or inability to use the Bot. Because the Bot is provided free of charge, our total liability for any claim relating to it will not exceed EUR 15. Nothing in these Terms excludes liability that cannot be excluded under applicable law, including mandatory consumer protection rights.

11. Indemnification

You agree to indemnify and hold us harmless from claims, damages and expenses (including reasonable legal fees) arising from your misuse of the Bot, your violation of these Terms or applicable law, or the way you configure and use the Bot in your server.

12. Governing Law

These Terms are governed by the laws of Hungary, without regard to conflict-of-law rules. Disputes will be brought before the competent courts of Hungary, except where mandatory consumer law gives you the right to bring proceedings in your country of residence.

13. Changes to These Terms

We may update these Terms from time to time. The effective date above shows the latest version. Significant changes will be announced in the repository. If you keep using the Bot after changes take effect, you accept the updated Terms.
